Steve's special training-PRODOLA
Thank you!!

April 11, 2010

Dearest friend and family:

Rafa is a warm-hearted 19 year old home group leader in our church. After the seminar I gave on becoming a healing missionary community, he asked me for personal prayer. He said he felt helpless and confused in his home group meetings when the hostess would stand and share all her religious stuff. He was thinking of quitting.

Rafa was prepared to spend an hour and a half in prayer with me. Part of the seminar I had taught was about connecting with Jesus and His presence in prayer and interacting with Him in quiet, restful dialogue. Rafa had experienced Jesus' presence many times over the past four years since his first encounter with Him. He connected easily and then in his mind, went to the home group meetings where he felt so uncomfortable.

He had the same discomfort in a memory of a previous experience at age 15. Rafa discerned Jesus' presence with him in that earlier memory and received His joy. Returning to the present home group situation in his mind, He perceived Jesus with him and prayerfully asked Him questions. He listened and observed the Lord ministering through him to the members. All of his anxiety and helplessness was replaced by the truth he received first-hand from the Lord. Rafa's confidence was totally restored to joy and expectation of what Jesus would do through him in the future. This was an amazing experience for me of watching Jesus disciple one of his own young leaders in how to lead a home group with His joy.

Somebody's been praying!!!! I got a call from one of the new INSTE students who has a Masters degree in marketing and is a young entrepreneur. She has raised up an employment agency and gives seminars on business management and human resources. She said she wanted to offer us office space for INSTE at a "symbolic" price and said she wanted to be the National Promoter for INSTE – with no pay, until results are strongly felt. Is God good or what??!!!!

This is an answer to years of prayer. When Helen and I fasted through Christmas and into this New Year we sensed that 2010 was going to be a year of tremendous breakthrough for us and it looks like we were right on. We want to thank you for having played a major role with us in this breakthrough for Guatemala.

I arrive in Helen's arms tomorrow after 78 days of separation due to the births of our third and fourth grandkids. I haven't been with our children in 3 years and I will meet our two new grandsons this week. Helen and I will spend the month together for mission conferences in Pensacola and hang with the kids and grandkids till May 12th. Please pray with us that we will not return to our mission field in debt from this trip as we have in the past. I've also needed new eye glasses for well over a year... ouchy headaches!!!

Thank you so much for your sensitivity to our needs. Your friendship, love and faithful, sacrificial support are life to us. You strengthen us to strengthen others.
